PLUG. PRESS.

PROTECT.

INSTALLATION HAS LEFT THE CHAT.

Rapid Deploy is the easiest-to-use security fog system we've ever made. No engineers. No installation. No delays. Just plug it in, arm it with the remote fob, and walk away knowing the space is protected.

Plug. Press. Protect.

It's everything you need in one compact unit — onboard detection, remote arming, full fog capability.

The Dualtech detector discovers movement. The unit fires. Thick fog floods the area in seconds, swallowing shelves, blinding sightlines, and driving intruders straight back out.

No stolen stock. No damage. No losses. Just instant, automated defence.

Want monitoring? Link it to our Sentience platform where you can monitor and control all of your fog generators.

Security fog has never been this **effortless.**

PERFORMANCE

- Simple, powerful, fog!

FEATURES

- In-built Dualtech detector for stand-alone protection
- Remote fobs for simple arming and disarming
- Powered via standard 240v mains plug
- Strong handle for effective manual handling
- 50 second initial burst for maximum smoke generation in risk critical areas
- Optional GPS unit can be included to enable remote monitoring and location tracking.
- Optional panic button available for immediate fog if required
- Optional durable, wheeled carry case for effortless transportation
- Supports multiple activations per fluid refill
- Extreme temperature operation: -10°C to 50°C
- £10 million product and public liability insurance
- 3-year warranty.

FUTURE COMPATIBILITY

- IP Upgrade available for link to *Sentience Programme*.

CONSTRUCTION

- Rugged and compact steel casing in pure white
- Precision steel heater block offers high levels of performance and reliability, and allows use of most persistent smoke chemical.

STANDARDS COMPLIANCE

- Meets requirements of CE and UKCA standards
- CNPP Rating: Class I Category 30.

FLUID

- 1 litre fluid system.

DIMENSIONS

- Carry case 61(H), 26(D), 42(W) cm
- Rapid Deploy 55(H) including aerial x 14(D) x 23(W) cm
- Weight: 16kg (22.3kg including case).

ALL-IN-ONE SECURITY FOG.

Security fog is the ultimate disruption tool.

But how does it work?

In seconds, the fog fills the room, confusing the intruder and destroying their sense of control. They can't see what's around them — or what's coming. The only option? **Run.**

No mess. No confrontation. Just a smart, safe, and immediate defence that keeps your people and your property secure.

Rapid Deploy isn't just simple — it's portable.

Designed to move with you, it comes packed in a rugged, wheeled carry case for effortless transport. No heavy lifting. No complex setup. Just grab, roll, and deploy.

Rapid Deploy is our most simple security fog system. It doesn't wait for installation or permission. This is protection straight out of the box — no drills, no wiring, no delay. Deploy anywhere and it transforms a high-risk space into a no-go zone within seconds.

Wherever security is needed, Rapid Deploy is ready — fast, flexible, and fully self-contained.

Rapid deploy protects the unprotected. Instantly.
